Dear Chaperone,

Welcome to Madison Children's Museum! As a chaperone, your role is vital to the successful experience of Museum guests. Below are some suggestions and guidelines to help make your visit the best it can be. Remember, chaperones are active participants! Because Madison Children's Museum is completely hands-on, we ask you to stay and play with your children. By interacting with your kids, you will enrich their experience.

- **Read** the directions and signs at exhibits to children. Better yet- ask them to read to you!
- **Play!** Be a paleontologist in our **Dig into Dinosaurs** site or supervise farm chores in the **Milking Parlor**. See who can make the silliest shadows in the **Shadow Room**.
- **Engage** children and enhance their learning experiences by asking questions about the exhibits you are exploring.
- **Encourage** teamwork and problem solving during exhibit exploration.

Stumped by a tough question? Museum staff are always available to offer help!

Museum Rules:

1. Share with each other and respect one another.
2. Please walk at all times.
3. Please use indoor voices while in the Museum.
4. Stay with your group at all times.
5. Please pick up and put away all exhibit items when you are done using them.

Thank you for visiting Madison Children's Museum!
We hope you enjoy your visit!
